

TRAINING IN LAPAROSCOPIC SURGERY

Objectives

The laparoscopic surgery course addresses multiple levels and modalities allowing the learner to choose the best suited course of simulation he needs: from the basics of laparoscopic surgery (instruments management and basic skills and tasks acquisition) to the execution of simulated laparoscopic procedures.

Courses details

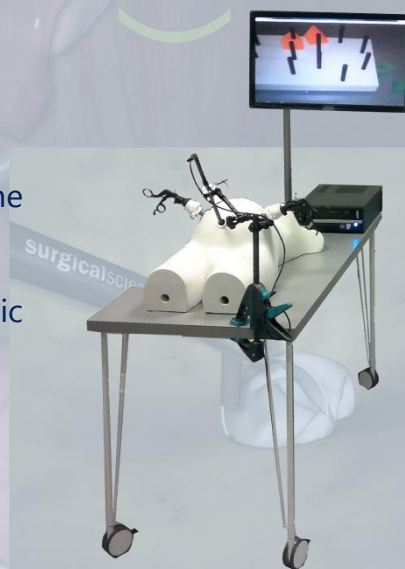

- ❖ Basic Course (1 day): execution of the following modules in the virtual simulator and subsequent evaluation to the physical simulator:

- ✓ *Basic skills*
- ✓ *Task training*
- ✓ *Camera anatomy training*

- ❖ Intermediate Course (2 days): same as the basic course with the achievement of the certification level (FLS).

- ❖ Advanced Course (1 day): execution of specific laparoscopic procedures at the virtual simulator:

- ✓ *Appendectomy*
- ✓ *Cholecystectomy*

Participation fees

- ❖ Basic Course:

For surgeons: 600€ (VAT included)

For residents: 500€ (VAT included)

- ❖ Intermediate Course:

For surgeons: 750€ (VAT included)

For residents: 600€ (VAT included)

- ❖ Advanced Course: from 400€ (VAT included) according to the number chosen procedures
